

Most Cited Standards by HIOSH (July 1, 2003 - June 30, 2004)

Rank	Standards Cited		No.
1	1910.23 1926.501-503	This section applies to guarding floor and wall openings and requirements for the protection of floor openings. Railings, toe boards, and cover specifications are included. Training requirements are also included.	129
2	1910.28 1926.451-454	Scaffold requirements for various types of scaffolds were not met.	100
3	1910.304 1926.404	This section contains grounding and overcurrent protection requirements for systems, circuits, and equipment.	65
4	1910.134	Respiratory protection was not provided for employees in the workplace.	64
4	1910.1030	This section applies to all occupational exposure to blood or other potentially infectious materials .	64
5	1910.305(b) 1926.405(b)	Conductors entering boxes, cabinets, or fittings were not protected from abrasion, and openings through which conductors entered were not effectively closed . All pull boxes, junction boxes, and fittings were not provided with covers approved for the purpose.	61
6	1910.215	Machine guarding requirements for abrasive wheel machinery were not met.	47
7	1910.178	This section applies to the requirements for powered industrial trucks and material moving equipment .	44
8	1910.305(g) 1926.405(g)	Flexible cords were used as a substitute for fixed wiring where not permitted. Flexible cords were not connected to devices and fittings so that strain relief was provided, which would have prevented pull from being transmitted to joints.	37
9	1910.303 1926.403	Electrical equipment was not free from recognized hazards that were likely to cause death or serious physical harm to employees.	34
